

CBHI Service Utilization

July 1, 2011 through September 30, 2011

Prepared by Office of Behavioral Health staff

2/15/2012

Number of Members Using CBHI Services

July 1, 2011 through September 30, 2011

- This CBHI service data is based on Managed Care claims data for members who have received the listed CBHI services. The data is submitted to MassHealth by each MassHealth managed care organization.
- MassHealth membership data is from the MassHealth data warehouse.
- Because there are different eligibility requirements for some CBHI services, the Table 1 reflects the appropriate denominator for each CBHI service.

Number of Members Using CBHI Services

July 1, 2011 through September 30, 2011

TABLE 1		
Percent of MassHealth Membership, under 21, Receiving CBHI Services, July 1, 2011 through September 30, 2011		
Average Number of MassHealth Members under 21 eligible *		499,188
*Includes members in Standard and CommonHealth		
CBHI Services	Q1-FY 2012 Number of Unique Utilizers	Percentage of Eligible Members
Intensive Care Coordination	4,906	0.98%
Family Support and Training	4,135	0.83%
In-Home Behavioral Services	710	0.14%
Therapeutic Mentoring	4,490	0.90%
Average Number of MassHealth Members under 21 eligible **		560,436
**Includes members in Standard, CommonHealth, and managed care enrolled members in Basic, Essential, and Family Assistance		
CBHI Services	Q1-FY 2012 Number of Unique Utilizers	Percentage of Eligible Members
In-Home Therapy	7,510	1.34%
Youth Mobile Crisis Intervention	3,000	0.54%
ALL CBHI Services (No CANS)	14,654	2.61%

Number of Members Using CBHI Services

July 1, 2011 through September 30, 2011

- CBHI Service data on the following pages is provided through September 30, 2011.
- The data is for the following six CBHI services:
 - Intensive Care Coordination
 - Family Support and Training
 - In-Home Therapy
 - In-Home Behavioral Services
 - Therapeutic Mentoring
 - Youth Mobile Crisis Intervention
- Each of the services has three charts:
 - The first chart is a summary report showing both estimated utilizers and average billed service hours per utilizer.
 - The second chart shows average billed service hours by age group.
 - The third chart shows service utilizers by age group.
- These data are based on Managed Care claims on members for whom providers have billed the CBHI service.
- The data is submitted to MassHealth by each managed care entity in the CBHI Cost and Utilization Reports, and combined by Office of Behavioral Health Analytic Staff.
- The estimated number of utilizers is slightly inflated because members who switch between health plans are counted more than once.

of Utilizers by Age and Month - Youth Mobile Crisis Intervention

Percentage of Members Receiving Intensive Care Coordination Accessing Other Behavioral Health Services

July 1, 2011 through September 30, 2011

- Table 2 represents the percent of youth receiving ICC who also used other Behavioral Health Services in that month.
- This data is based on the Managed Care claims data on members for whom providers billed ICC and other behavioral health services during the month. The data is submitted to MassHealth by each managed care entity in the ICC Key Indicator Report, and combined by Office of Behavioral Health Analytic Staff.
- The estimated number of utilizers is slightly inflated because members who switch between health plans are counted more than once.
- The numbers do not exactly match the data in the other charts, because they are based on different reports, which are run on a different date.

**Percentage of Members Receiving Intensive Care Coordination
Accessing Other Behavioral Health Services
July 1, 2011 through September 30, 2011**

Average Hours of Behavioral Health Services
Accessed by Members Receiving Intensive Care Coordination
July 1, 2011 through September 30, 2011

- Table 3 represents the average number of hours for services received by youth receiving ICC and other Behavioral Health Services in that month. Hours are calculated based on the number of units of service provided per utilizer. For 24 Hour Level of Care, which includes inpatient and Community Based Acute Treatment services, the data represents the average number of days of service.
- This data is based on the Managed Care claims data on members for whom providers billed ICC and other services during the month. The data is submitted to MassHealth by each managed care entity in the ICC Key Indicator report, and combined by Office of Behavioral Health Analytic Staff.
- The estimated number of utilizers is slightly inflated because members who switch between health plans are counted more than once.
- The numbers do not exactly match the data in the other charts, because they are based on different reports, which are run on a different date.
